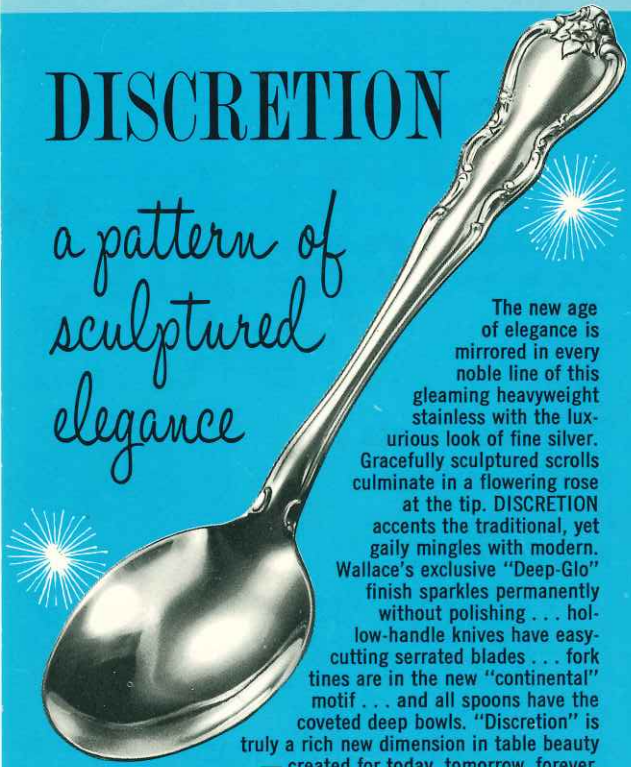
WALLACE STAINLESS

DISCRETION

a pattern of sculptured elegance



The new age of elegance is mirrored in every noble line of this gleaming heavyweight stainless with the luxurious look of fine silver. Gracefully sculptured scrolls culminate in a flowering rose at the tip. DISCRETION accents the traditional, yet gaily mingles with modern. Wallace's exclusive "Deep-Glo" finish sparkles permanently without polishing . . . hollow-handle knives have easy-cutting serrated blades . . . fork tines are in the new "continental" motif . . . and all spoons have the coveted deep bowls. "Discretion" is truly a rich new dimension in table beauty — created for today, tomorrow, forever.
